

SAMPLE INVITATION

Welcome to Cornelia's Garden

Nourishment and care help the wildflowers in Cornelia's Garden grow, just like the Cornelia de Lange Syndrome (CdLS) Foundation cares for my child and thousands of others. The Foundation provides the services and support my family needs to hope for a better future, and the help my child needs to grow and bloom. So share with me the beauty of the wildflowers by planting these seeds in spring, in honor of _____ and you'll remember the support you provided my family and the CdLS Foundation all summer long.

How to Plant Hope in Cornelia's Garden

- 1) Select a sunny location to plant your wildflower seeds.
 - 2) Scatter them by hand with care.
 - 3) Lightly cover with soil to protect them.
 - 4) Nourish them with moisture for four to six weeks.
 - 5) Enjoy your flowers throughout the summer, remembering the hope that you gave families that face the challenges of CdLS every day.
- It is in Cornelia's Garden that wildflowers bloom and there is hope.

Thank you for caring.

WILD FLOWER PACKET

THANK YOU NOTE

Thank you

Our children are like wildflowers
Each unique in their own way
They share with you their beauty
Giving joy to you each day

They grow in Cornelia's Garden
Warmed by the summer sun
Tended by love and kindness
A flower they will become

Shimmering colors, endless blooms
With colorful shades and hues
Thanking you for the love you gave
And the gift to honor them too
